Many people go on vacations when they have the time. Where will you go if you have a vacation? Recently glamping has become popular in Japan. Do you know what glamping is? Glamping is short for GLAMOROUS CAMPING.

When people go camping, they often eat food that they can make and carry easily. It is too hard to carry the stuff needed to bake a cake, so nobody does it. But if you go glamping, you should think about having what you really want. So businesses offer gorgeous camp sites that are already set up. They also offer some special foods or things to do. People like to have a nice hot bath at the end of the day, but it's impossible when they go camping. However, glamping businesses prepare a bathtub and lots of hot water. Also some people like to have drinks with ice, but it will all melt before you are ready to use it. At a glamping site you can get ice and other things. People who go camping want to spend the night far away from cities. People who want to have a bath or drinks with ice usually go to a hotel, but hotels are normally in cities. So if you want to enjoy a night or two in a forest, or far from a city, why not try glamping? Glamping has both the beauty of nature and the \*amenities of a hotel.
